## Tisdale: Enrollment full

BY AMY PICKICH

In a special meeting Monday night of the Bay-Waveland

School Board, Superintendent Paul Tisdale said enrollment for the 1993-94 school year is

rollment students.

The board approved the transfer and release of students outside the district, but discussed a resolution that would only allow students of certified employees to transfer from outside the district.

The situation will be discussed at a later meeting to prevent future enrollment from exceeding capacity.

The board approved a supplemental salary increase for assistant coaches from \$600 to \$700. A supplemental salary of \$700 was also approved for a teacher for the new dance team to begin in the fall.

Tisdale recommended the board consider a two-day training period for teachers to be added into next year's school calendar. Tisdale said the program is not required but may be

## Reward offered in Bayou Phillips fires

BY AMY PICKICH Hancock County Fire

Hancock County Fire Marshall Richard Pate said a \$1,000 reward is being offered for information leading to the arrest and conviction of those involved in three structure fires in the Bayou Phillips area on August 17.

Two trailers and one house reportedly burned around 1 a.m on Bayou Drive. One trailer burned because it

One trailer burned because it was beside a house that burned. The other trailer was about a half block from the house.

The residents were out of town at the time of the fires and returned to find items missing, according to the Hancock County Fire Marshall's office.

"At this time we know the house was set and we are inclined to believe that it was to cover up a burglary," said Pate.

Pate said both incidents are still under investigation by the Deputy State Fire Marshall's Office and the Sheriff's Office.

If anyone has any information about the fires, contact Pate at the Deputy State Fire Marshall's office at 466-4709, the Hancock County Sheriff's office at 467-5101 or Crimestoppers at 255-6426.

Realty in Bay St. Louis.

Wars have been waged among friends, and friendships have been endangered over the best way to make a barbecue sauce and the best foods upon which to use that sauce, haven't they?

So, I'll not go into that today, although I have, of course, my own iron-clad opinion! But, if you're planning a cookout on these late summer days, don't forget that it takes awhile to fire up the barbecue pit or grill, and awhile longer to cook up that barbecue-whatever, and you'll need a few tidbits to keep the crowd from starving while the host goes through the barbecue ritual!

A favorite munchable at my house are mini-drums, or miniature drumsticks, not a drumstick at all, of course, but the meaty joint of the chicken wing, iust a couple of tasty bites. The second, flatter joint also is often used. (Save the wing tips to add to the soup or stock pot).

I often buy packages of wings at the store, and also freeze and store the wings each time I buy a chicken or chicken breast quarters. Before cooking the mini-drums or "drumettes" as they are also known, I marinate them at times in a sweet-sourbeery mixture, then brown them and simmer until tender. Here's:

MINI DRUM IN BEER SAUCE

2 to 3 dozen chicken wings 1 cup soy sauce 1 cup pineapple juice 1/4 cup brown sugar 1 garlic clove, minced Heaping Tblsp. minced onion

Level tsp. ground ginger 1 cup tired beer (open beer, and let it sit awhile, then stir

well) Dashes of black pepper to your taste

First, of course (if you haven't bought the mini-drums already

trimmed) cut off the wing tips and reserve as above. Also cut the end joint when you cut the drums. (Mix the marinade ingredients, pour the sweetsour marinade over the chicken in a deep bowl, so that all the pieces are well bathed in the

Marinate for 2 or 3 hours in

the refrigerator, or an hour at room temperature. Drain off the marinade, and set it aside. Brown the chicken pieces in a little butter or oil, or a bit of both, in a heavy skillet.

Add a half cup or bit more of the marinade, bring briefly almost to boiling, turn the heat down. Cover the pan, and simmer for 20 to 30 minutes until the mini-drums are tender. Peek in the pan from time to time, and ada a bit more of the marinade if needed, so that the chicken won't dry out.

These mini-drums are best served hot, either in the sauce, or with the sauce in a separate bowl for dipping; and, if you wish to "stretch" the dish, add tiny hot dogs or hot dogs cut into

slices, along with sausages (cooked, of course).

These mini-drums are also tasty, Southern fried chicken style, in their crisp batter coats. They also freeze well, so that you can make up an extra batch and freeze for another time - a Labor Day cookout, perhaps? (Copyright, 1993, Katharine

## QUOTABLE QUOTES"

By Ellis C. Cuevas

The Hancock County Chamber of Commerce Morning Edition is scheduled for 7:30 a.m. tomorrow, Friday, at the Mississippi Power Company auditorium.

Guest speaker will be Dub Thornton, senior administrator judge, State Workers Compensation

I am sure there may be some who have questions about the Workers Compensation Commission, and this would be a good time to get information from the

This is an open meeting for chamber members and guests, and everyone is welcome.

It would be good for you to remind your business friends about this important chamber program.

The Sea Coast Echo is this month's sponsor for the Morning Edition.

I hope to see you tomorrow morning.

It is that time of year once again when 11 people on one side try to carry a pigskin through 11 opponents on the other side without being trampled, knocked down, tackled or stepping outside a white line.

For spectators the season begins Friday night, while preparations for the season began with Spring training many months ago for coaches and players.

Becoming a football player is not done overnight, and many of the players of high school football teams have already played five or six years.

Football is a game of many members and is successful only through team effort, individual discipline, hours of viewing films, physical training, dedicated coaches and a desire to continue a tradition of many years.

There are coaches and assistant coaches, team managers and trainers. All are necessary to field a team.

Hours of preparations will be tested Friday night as all of Hancock County's three high school football teams will see action.

It will the the opening game of the season for the Tigers, Hawks, and Rocks.

Everything which has gone before will now come as a reality for coaches and team members.

The games Friday night will not be a scrimmage; they will be the real thing, and the results of the first game of the season will remain until the end of the season.

Now is the time for the fans of the Hawks, Rocks and Tigers to show their appreciation for all the efforts which have been put into the pre-season.

Fan support can and does play an important role in giving a respective team support. Many games are so very close, and that little extra cheering on from the stands can help change a loss to a victory.

Building from ground up for a few seasons paid dividends last year for Bay High's head coach Rocky Gaudin. The Tigers gave fans an impressive record of

Bay High not only moves up in conference status, but they also jump to a season opener against 5-A rated Picavune.

Picayune has been struggling in recents years, and Bay High could give the Maroon Tide a good battle.

The game will be played at Bay High's stadium, and the stands need to be filled with Tiger supporters. Hancock High will also be testing its strength Friday

night when head coach Irvin Favre's Hawks will journey to engage the Biloxi Indians, another 5-A squad.

It will sure be a test for the Hawks, but who knows what is going to happen in a season opener. The game is to be played at Yankee Stadium, Division and Lee streets, Biloxi.

The Rocks of St. Stanislaus should be improved this season and will play host to Northeast Jones.

I do know that Northeast Jones is rated as a 4-A school, like Stanislaus. Other than that I know little about the Friday night visitors coming to Rock-A-Chaw stadium.

Rock head coach Ken Lyons has been working very hard getting his squad ready for this season. His team should display some exciting football this year.

Even with only winning one game last season, Stanislaus did manage to give the Rock fans some things to shout about.

Remember, you support is needed in the stands Friday night for your favorite team.

I hope to see you at the game Friday.

## LETTERS TO THE EDITOR

## Tight-knit Clermont/Lakeshore community wants to stay that way

Dear Editor,

My husband and I, as well as many others we talked with, were outraged at a letter printed August 5. It was authored by a very opinionated Waveland resident who, in a few neat paragraphs, narrowed Clermont Harbor residents down to "sleaze" which were not good enough to become Waveland residents. I would like to comment on this.

As far as Clermont having "everything to gain" by being annexed by Waveland, nothing could be farther from the truth. Long-time residents like ourselves feel we have everything we need, and more. We surely don't have the political or financial troubles that Waveland is presently dealing with, and we don't want them!

Clermont Harbor and neigh-

boring Lakeshore are a tightknit community who come together in our town people's times of need. Just come to one of our many benefits or softball tournaments and you'll see.

The point I'm trying to make is that we are a family here, and we like things the way they are. We realize, of course, that the Bayou Caddy Casino will change our home, but not too much.

I say this with confidence because I know the people, and we are good people.

We hope and pray that Waveland will remain the residential community it has always been, because that's something we can't be. We have to be more. Sincerely,

Evangeline Vizzini Doyle Lakeshore

Second, forget it! Unless we are willing to enforce the speed limits, it will not matter if we cut the speed limit to 35 mph. Everywhere, including that

Question: How many drivers First, let me applaud the Bay slow to 15 mph while passing in front of the Bay St. Louis Police and Fire Departments?

It is not the fault of law enforcement, rather it is priorities. It might help to hire traffic police whose sole duty would be traffic speed enforcement. It would seem that this form of enforcement could finance itself.

So, cut the speed limit, but if we are not prepared to enforce it, forget it! In fact, if we enforce the present speed limits, we might not have to reduce any speed limits.

## Annexation of Clermont was merely food for thought

Dear Editor.

Before one writes a letter to the editor he should be aware of at least two things: one, your actions will trigger reactions; two, few people read, they scan. As such, many do not get the full meaning of the message and go off half-cocked. Some may not even know what the writer is talking about.

I stand on my original suggestion that the annexation of Bayou Caddy and Clermont Harbor was a viable option for an otherwise regressive administration to pull itself out of

It is no secret that I am against casino gambling, but it is here legally and probably will be here for a long time.

My reasoning is that due to the close proximity to the casino it is destined to have a profound effect on all of us, much of which will be negative and costly.

We should have positioned our political structure to make the casino work for us rather than it being a drain, with the

come. I've been given the figure of 50,000 gallons of effulent that will be deposited in the treatment plant each day. The casino, I'm told, will pay .028 cents per gallon. One-half of this will be treatment costs and one-half be user fee. This one-half to the city calculates to a very impressive \$255,000 per year, or an equally impressive \$700 per day.

However, that is only \$30 per

hour, a much less impressive amount to go toward the mitigation of the negative effects to

That is about the cost of a dispatcher and one manned patrol car on a 24-hour basis.

I've said no to people who have asked if I would push the option. I was only sowing a seed for thought. If it had landed on fertile soil, that would have been good; however, it missed by a mile and wound up on some bone-like material without sub-

stance. So be it. Nor were my letters just opening shots for a campaign for mayor or alderman. Heaven forbid, or if not that, wife forbids. But there is an opportunity for some one, two, three or more

Last Thursday night, August 19, my wife and I attended a meeting that had been advertised as a public meeting for the discussion of the proposed budget for the city of Waveland.

Can you imagine that copies of the past, past amended and proposed budget were furnished the mayor, the aldermen, the press, the city employees, but none were furnished to the public for which the meeting had been called?

One lady asked for a copy and a Waveland alderman, who had made five extra copies on his own, gave her one.

Some public meeting. Fellow Wavelandites, you would just have to see it to believe it.

Perry Gibson Waveland

## Meaning of letter was misconstrued

This a follow-up to my letter to the editor of Aug. 5, which was in response to an August 1

Dear Editor.

My letter of Aug. 5 described the disadvantages to Waveland in the event of an annexation of Lakeshore and/or Clermont Harbor. It also described the disadvantages of placing a gambling house anywhere along the

This is my opinion, and I am entitled to it. At no place in this letter did I refer to or remotely relate to the residents of either community.

Mississippi Gulf Coast.

Since another writer saw fit to take a cheap shot at me in her letter to the editor of Aug. 11, I feel that she could use some education in the use of the subiect matter of a letter and the part a descriptive adjective plays when one is describing a situation

The term sleaze was used in my letter, as it was also used in another letter, to describe the physical decay that follows all gambling houses, i.e. barrooms, prostitution, drugs. The last paragraph of the writer's letter certainly was not in good taste.

I have friends and acquaintances in both Lakeshore and Clermont Harbor, and if the lady's comments have given any resident of these communities any concern I apologize for both her and myself.

Sincerely, A. P. Badeaux Waveland

## Politicians' agendas take precedence over issues

To the Editor:

My home and my business are located on Beach Boulevard in the area that claims it is not interested in annexing.

I think I am against annexation.

I am confused on a few issues. so I went to a meeting called by our county superintendent of education, who claims that annexation would be bad for our children, to get some answers. I learned that political agendas, it seems, take precedence over

As I understand the current law, our supervisors would be responsible for dispersing the gambling revenues to the schools, Sheriff's Department

and so forth, whether the area is annexed or not.

Every day we are told the Sheriff's Department doesn't have enough money to patrol properly. Our beach is gone; the seawall is falling into the water; and the schools do not have enough money to properly educate our children.

If our county is so broke, I wonder why our supervisors voted to give up to \$10,000 to the epilepsy public charity and why they voted themselves a 10

percent pay raise?
I am told that the millage tax for Waveland is about 112 mills; we currently pay about 97 mills.

pay about \$1.50 more tax for each \$1,000 of assessed property value. Let's see, that would be about an extra \$50 a year I would have to pay in taxes.

For this I would get a #6 fire rating, which would save me about \$600 or \$700 a year in fire insurance, police protection. sewerage and other services. Should I consider this bad?

My youngest son was recently graduated from Ole Miss. Ole Miss is about 325 miles from here. He tells me that it is common knowledge on campus that you can go to Clermont Harbor and get dope "under the oaks" or at any beach bonfire. I wonder why you don't hear of the hooligans doing things like

Finally, at least \$500,000 could go directly to the children if the two school boards combined their administrative staff. I wonder why anyone claiming to be really interested in the education of our children doesn't consider saving expenses by consolidating to control administrative expenses and using the money to educate our children?

The only answer I got out of this whole mess is that the personal agendas of some of our officials seem to be more important than the general welfare of the citizens of our county.

## Mississippians have last laugh at La. gaming fiasco

Mississippi taxpayers on the Gulf Coast are enjoying the reduced taxes made possible by the casinos. We hated the Grand Palais because of the possibility of it upsetting our apple cart. But we sure to love that Grand Delay!

By the time you all get started over there in Louisiana in your jazzed-up banana republic, we will be so far ahead you will never catch up with us.

So I am confident that our tax reductions are infinitely safe. If you all need any more monkey wrenches over there, I will personally supply all you want free of charge. But your home-grown ones appear to be inexhaustible.

No longer can you say, "If it weren't for Mississippi, Louisiana would be last in everything." That wasn't accurate anyway.

We are so far ahead in litter control that no state surpasses us. If you don't clean up your town you couldn't fill up your casino even if you moved the original Taj Mahal from Agra, India to New Orleans.

Louisiana will never be respected as long as its politicians put themselves ahead of the people.

The people of Louisiana should have decided whether or not they wanted gambling, as the people of Mississippi did. Your politicians don't think you are smart enough to make your own decisions. Maybe they are

To make yourselves look superior you have always been fond of calling us Mississippians rednecks. I would rather have a red neck than a red face. Yours truly,

Local talent takes national competition

BY LIZ HAAS

Tabitha Wilkinson of Waveland won the modeling division of Talent America, a national contest for modeling and talent, held in New York July 30 and

She competed against 110 girls in the youth division, 10-12-year-olds. Wilkinson also competed in

the talent division, with singing as her talent. When I went into the contest

I really didn't know much about modeling. I knew more about singing.
"I was hoping this could be my big chance, but I really

didn't expect to win first place because this was my first year going," she said. Tabitha received 10 callbacks out of 14 from the mana-

gers and agents. The Our Lady Academy eighth grader, who turned 13 on Friday, has an agent, Eisenburg and Aqua Hart, and is managed by Rani Steel of

Nashville. Tabitha began her career as a one-year-old singing for candy money in grocery stores while

her mother was shopping. Her mother, Traci Wilkinson, recalls Tabitha learned "You Are My Sunshine" from an aunt and would sing it at the stores.

"She stopped singing at age 2 and didn't sing again until she was 4," said Traci Wilkinson

Since that time, she has had music, dance and voice lessons in addition to much experience in acting.

She played Becky in Tom Sawyer at the age of 7 and was in a commercial for Electric

At 8, she was Little Miss Muffet in the production Babes in Toyland.

Tabitha has done some modeling for J.C. Penney's. She also played the part of Bernice the Nerd in When the Nerds Bit Beverly Hills and was Gladys Herdman in The Best Christman Pageant Ever.

In Happily Every After, she played the part of Princess Beauty and was Grams as a child in The Teas Service.

She played the part of Heidi in the production of Heidi and was the Teapot Mouse in Alice

in Wonderland. Last summer, she copywrited her own song, "Let's Change the

Her music teacher of the past year and a half, Mary Howard, helped Tabitha with the music for the song. Tabitha performed the song

at the Saenger Theatre Talent Search in Biloxi and for an Eagle Talent Agency Program talent search in February.

"I've been working at this my whole life. I love to entertain, so I guess I expected something to happen some time," she said.

In September, Tabitha will travel to Nashville, Tennessee, to be on "Rainey After Dark Show," a community TV show to promote talents.

In October, she will be in a show at the Opryland Hotel as special guest for Silver Wing

## IN AND AROUND DIAMONDHEAD

By Margaret Williamson

Residents consider the pros/cons of incorporation

TO BE OR NOT TO BE

Diamondhead Incorporated? At the first meeting by the Diamondhead Community Association, whose motto is "Working for a Better Diamondhead," a straw vote to continue the incorporation process was 79 percent

for proceeding to incorporate. After first steps are taken, the last step for the voter action is the signing of a petition to the chancery court — this is where 2/3 of the registered voters are required by the court to consider the petition.

After the petition is filed with the court, notices to incorporate are published and a hearing held for all who might be affected or objecting.

After the hearing, the chancelor may or may not issue granting decree incorporation.

 If the decree grants incorporation, there may be appeals. After these are all cleared, the interim government would then be commissioned by the Secretary of State of Mississippi.

The mayor and council elected in the public meeting would then set up the functional city government.

Costs are always a concern, but there is no requirement to spend money for every imaginable convenience that you know some city, somewhere, provides.

Before the last meeting on Aug. 6, an estimated budget for 1993 with minimum municipal services for "The City of Diamondhead" was sent out along with the information above to the association members.

The meeting reached a standstill, as there still are many who oppose incorporationg Diamondhead. And the letter reads:

-Do you want to change the character of our quiet, secure community?

-Do you want our private streets made public and open to anvone?

-Do you want new taxes? -Do you want an additional layer of bureaucratic government?

-Do you want corruption?

-Do you want to change Diamondhead simply for the sake of change?

If your answer to these questions is no. then do not sign any petition asking that our private community be incorporated as a

city.
The Diamondhead Preserva-Bette Winkler is certainly alive and well,' as they stated the above, and many other reasons not to incorporate in this letter mailed out to all Diamondhead residents. We all hope that the final decision will be for the betterment of all of Diamondhead.

## D'HEAD ROTARY

The last two meetings of the Diamondhead Rotary Club have been to promote and encourage support to the South Mississippi AIDS Task Force.

Marianne Dubose and James Rider HIV/HIDS educators, both give enlightening presentations on the AIDS status in our local communities.

The projection of how widespread this dread disease will be in the year 2000 is appalling and unbelievable. A provocative and tragic film entitled "The Los Altos Story" is shown to further educate the audience about how one family deals with the death of their son and brother from AIDS.

These presentations and films are available through the Task Force for schools, civic organizations, church groups, law enforcement agencies, etc.

## **CONSUMER UPDATE**

## Do women pay more and get less?

By Janet K. Lukens Area Consumer Money

Management Specialist A man's cotton shirt can be laundered and starched for \$1.10. Cleaning a women's cotton shirt is likely to cost \$2.20 or twice the price. A man's haircut often costs \$10 less in the same salon even if the woman's hair is the same length.

Women currently earn approximately 26% less than men. In spite of this, women often pay more for the same goods and services.

Automobile costs from purchases to repairs are one place the disparities are most obvious. Women are less likely to negotiate on a car price than men. According to a study by the New York City Department of Consumer Affairs, 42 percent of car dealers surveyed quoted higher prices to women. The prices averaged \$396.67 higher than those quoted to men.

Car repair fraud is too common with all consumers. But women who aren't mechanically inclined are especially susceptible. A few years ago, a mechanic told me my car needed the drive shaft boots replaced. A second mechanic found no deterioration in the boots. I drove the car another 30,000 miles, sold it to a friend, and the drive shaft boots have never caused a problem.

A similar incidence involved the clutch on another car. Once again, the car part was not the problem, the car repair service

Another area in which women feel the deficit is with retirement income. Though over 57% of women are working, they are not building retirement benefits comparable to those of men.

Despite their longer lives, 76% of retired women do not receive pension income. This compares to 54% of men without pensions.

Work patterns often prevent women from meeting "vesting" requirements. ("Vesting" means that the employee has a

legal claim on retirement benefits that cannot be taken away.) For most employers, 100%

vesting occurs after five to seven years of service. A women who begins work, quits to have a family or moves for a spouse's job, many have difficulty meeting these requirements.

With Social Security, a worker needs 40 quarters or 10 years to be eligible for retirement benefits. The actual benefit is calculated over the highest 35 years of earnings.

If a woman was employed less than 35 years, zero earnings are factored in for the missing years.

Women who spend most of their lives rearing a family may be forced to draw Social Security benefits from their husband's or ex-husband's record. A spouse's benefit is equal to onehalf the worker's benefit. This often leaves a divorced woman living on a devastatingly low Social Security income.

Why Women Pay More, by Frances Cerra Whittelsey, delves into this subject beyond what I have reported from our

Money Management Center. It gives ways to combat the phenomenon of women paying more and getting less. To order the book, sent \$10.00 to: Center for Study of Responsive Law, P.O. Box 19367, Washington, DC 20036.

## Humphryes named new Johnson Controls Mgr.

Johnson Controls World Services Inc. welcomed a new general manager the end of last month. R. Keith Humphryes joined the project which handles facility operations and support services (FOSS) at NASA's John C. Stennis Space Center.

Prior to his appointment to Stennis Space Center, Hum-

phryes was the project manager for the Shuttle Processing Project at Kennedy Space Center,

During his 25-year career with the company, he has held progressively responsible staff and managerial positions which provided him with the knowledge and skills necessary to successfully manage a large, diverse and complex project such as the FOSS Project at Stennis Space Center.

At Kennedy Space Center, Humphryes was instrumental in implementing reliabilitycentered maintenance at four major government installations optimizing maintenance resources. In 1993, his management led the Shuttle Processing Project to receive the President's Award for Excellence in Customer Satisfaction.

Humphryes has a master's certificate in acquisition (contract) management from the University of Central Florida, Orlando, and a bachelor's of science degree in engineering technology from Florida Inter-

## Tigers, Hawks, Rocks open 1993 football action Fri

The toss of a coin, sound of a whistle and kick of a football will officially open gridiron action for the three high schools in Hancock County Friday

Bay High, Hancock High and St. Stanislaus will open with competition in the District 8, 4-A conference this season.

A much improved Bay High squad moves up in conference play this year. The increase in number of students advances the school to the District 8, 4-A Conference along with Hancock High and St. Stanislaus.

The trio will be playing nonconference foes to open the season Friday. Bay High will host Picayune's Maroon Tide; Hancock High will play Biloxi's Indians in their Yankee stadium; and St. Stanislaus will host Northeast Jones at Rock-A-Chaw stadium.

Bay High will be experiencing stronger competition this year in District 8, 4-A, and will be really stepping up with their opening game against 5-A rated Picavune.

Tiger head coach Rocky Gaudin said, "I think we are going to have a good team this season. We are excited about playing

play, we feel we can get after

Bay High will be hosting Picayune at J.D. McCullouch stadium in Bay St. Louis.

"I have been personally very good friends with the coaches at Picavune. In recent years, we played their junior teams. They will be good competition and we will do our best against the Maroon Tide," Gaudin said.

Bay High was impressive in 1992 compiling a 8-3 overall record and gained respect once again on the gridiron.

Hancock High will really be challenged too, as on Friday, they are hosted by Biloxi, also a 5-A conference team.

Veteran Hawk head coach Irvin Favre, whose Hawks finished last year with a 4-6 record, will be looking to improve Hancock's record this

Favre, who directed Hancock from its football infancy to conference contender five years in a row, indicates his team will be small compared to others in the division and not as fast as in previous years.

Northeast Jones, a District 5, 4-A team Friday night at Rock A-Chaw stadium.

The Rocks, who fielded a very young squad last season will be out to improve over their one victory last year.

Head coach Ken Lyons reports his team is stronger this season, but adds so are the other teams in the district.

"Usually in the first game of the season, it is won by the team that makes the fewest mistakes. We appear to be about the same in size as Northeast Jones and think it will be a close game," Lyons said.

Stanislaus runs from an Iformation while Northeast Jones uses a winged-T offense. Lyons added, "This season

we will have more returning veterans over last season and are looking for a better record." Gaudin, Favre and Lyons report the competition between

members of the District 8, 4-A conference will be very keen this season. Coaches are looking to the fans for good team support in the stands, especially at home

By Jim Maness

It's time to go fishin' y'all. Had a long talk with Toxie Hall of LaFrance Fish Camp. There is no such thing as a short talk with Toxie.

Anyway, Toxie said that they are murderizing the fish out around Biloxi Bayou and Petit

Not only are the fishermen muderizing the fish, but they are some of the biggest trout being caught in memory. The average size this past week has been about 20 inches. Man, that is way above legal size.

Toxie said that there are quite a few fish being caught around Half Moon and Grassy Island, but they are not quite as big as the ones that are being caught around the Biloxi Bayou and Petit Pass area.

Before I go any farther, I gotta' clear up a misunderstanding between fishermen with a Louisiana license fishing only in Louisiana waters and the Green Man' Judge Klein explained to me that this is still America and a person is innocent till proven guilty.

Mr. Wright explained his interpretation of the law to me in this way: If you land your boat at a Mississippi launch after you have been fishing in Louisiana, and are checked by a Green Man, you must produce a valid Louisiana fishing license. Your catch must conform to Louisiana creel and size limits.

You do not need a Missis-

sippi license if you do not stop in Mississippi waters while in transit from Louisiana waters to a dock in Mississippi.

Mr. Wright further explained that there is what he called a "prima-facia" law that states that if you have fishing tackle in your boat you are presumed to be fishing.

The Green Men are supposed to ask you if you stopped in Mississippi waters. If you say you did not and they cannot produce an eye witness, then you don't need a Mississippi fishing

He did point out that it is a good idea to have a Mississippi license because, fishermen being fishermen, if you only have half of your limit when you are crossing back over from Louisiana waters, and you come across a big school of fish, the urge to stop and fish might be overwhelming. He has a good point there.

If you are as confused as I am, it might be a good idea to contact your state senators and representatives and ask them to clarify this situation in the next session of the legislature. The best solution, for right now, seems to be - when in doubt get everything. Remember, the funds from the saltwater license ware dedicated solely to saltwater fisheries enhancement.

The Turtle came across a

## License dilemma — when in doubt ... have them all!

novel idea this past week for fishing in areas that are hard to reach. Use a jet ski. I came across Karin Milner and Bret Boudet, of Saucier, gassing up their fishin' ski at LaFrance's.

Since the idea of a fishin' ski was new to me, I asked them to relate their ski fishing experiences. They explained that they bring their jet skis out to the Chandelier Islands by large boat. When they get there they use the jet skis to go in between the sand bars and to maneuver around the grass beds.

The skis are fitted with a rack that attaches to the back that can hold fishing rods, tackle, a

small ice chest, and so on. This novel idea has allowed these people to follow the fish as they move about and to get to areas that you can't get to with a

Karen told me that they had just come back from running the small cuts and ponds around the LaFrance area. She said you just can't believe the numbers of red fish that are

moving around in the shallows. She said "they are every-where." I think at least four or five fishermen, who were close by, tripped over themselves trying to get to their boats to go after the reds they just heard

This week's wonderful wise words: The Green Men with the flashing blue lights are everywhere

## ELE LESIGNES SHIPE OFFE all ages ballroom dancing

Ballroom dancing classes are being taught every Tuesday and Thursday nights from 7 to 8 p.m. at the James Page Dance

Studio in Waveland. Page said the age groups in his classes vary from late teens, to middle age to senior citizens. "Right now, I'm teaching a lot of country/western and ballroom dancing," he said. Classes, costing \$30 per

month, are taught by Page, who has taught dancing for 30 years. Page worked with the Miss USA Pageant when it was on the Coast and also taught dance lessons in New York for a year.

He began teaching in Bay St. Louis two years ago and moved to his present location in June of this vear.

These are relaxed classes.

Page also owns dance studios in Biloxi and Wiggins and has plans to expand to New Orleans after the first of the year.

"My students have a lot of fun and find it's a great way to meet new people," he said.

Some of the most popular dances taught are the swing, tango, bolero, merengue, two-step, cha-cha, polka, quickstep, foxtrot, rumba, charleston, country/western, waltz, mam-bo, paso doble and line dances. Page also offers private

## Bay High teens visit French exchange students

Special to the Echo "How did you spend your

summer?"
At least 17 high school students are returning to school well-prepared to answer this

ever-popular discussion question. They spent 2-1/2 weeks in France as guests of the families of students they hosted here

this past Mardi Gras.

The non-profit exchange program was begun five years ago by Mr. Lynda Jordan of Pass High in corroboration with Sea Cells, a foreign language collaborative on the Mississippi

Gulf Coast.

The first American group to travel to France, as well as this summer's group, was escorted by Ms. Kathryn MacDowell of Bay High.

Twelve of this year's 17 students attend Bay High, two are from Long Beach, one is from Pass High, one goes to St. Aloysius in Vicksburg, and the other attends Mamou High School in Mamou, La.

amou, La.
After spending three days

and two nights in Paris, the Americans were taken by chartered bus to Carentan, where they were met by their host families at a reception offered by the principal of College Notre Dame, the French stu-

dents' school.

While in Paris the students used the subway and a private bus to visit the city, including the Louvre, Eiffel Tower, Arc de Triomphe, Musee d'Orsay, Sac-

re' Coeur and Montmartre.

A boat tour of Paris at night along the Seine River was also part of their visit. For some students the highlight of the Paris stay was a trip to Jim Morrison's grave (lead singer for the Doors).

While in Carentan, the students traveled to Mont St. Michel, Ville Dieu des Poeles (the city of copper), Caen and the Peace Memorial of World War II, Point du Hoc (the site of the first American amphibious landing on D-Day), the American Cemetery from World War II, and Ste. Mere Eglise where they were given a reception and

made honorary citizens by the mayor of the city.

The students were also treated to a disco night; a picnic with miniature golf, paddle boats and canoes; paintball; three of the families invited all of the students for a cookout; a few were invited to a wedding; and two of the boys went bungee jumping with their host families.

The American girls were asked to play a benefit softball game in Carentan's stadium.

The City of Bay St. Louis provided uniforms for everyone, as well as souvenir t-shirts for the host students.

When the Americans arrived at the field they found out that they would be playing the Normandy All-Star team. Only three American girls knew how to play, so we won't reveal the score, but the French won!

Key chains and pens from Casino Magic and lapel pins from the City of Bay St. Louis were offered as souvenirs to the French team members, and the Americans received two books about the Normandy area.

## Ready to perform

After a long hot summer of practice sessions culminating with an on-campus band camp, the Hancock High School varsity band is ready to take the field at halftime in Biloxi at Friday night's football contest. Under the direction of second year band director Mark Richard, band members will be wearing new uniforms in black and white. Drum majors are Blain Hickman and Laura Ladner. Guard captains are Danielle Wainwright and Cheryl Runnels, and percussion captain is Mickey Reeves.

## MILITARY MENTIONS

CPL MALLINI

By Dr. Milo Burnham Horticulturist Mississippi Cooperative

**Extension Service** Horticultural concerns and opportunities were discussed during the recent 90th annual meeting of the American Society for Horticultural Science held at the Opryland Hotel in Nashville.

ASHS is the "premier professional society for people who create, integrate, teach and apply horticultural science." While the research division is the largest and strongest division of ASHS, the education, extension, industry and international affairs divisions play important roles in the

organization. The meeting consisted of pre-conference tours of the horticulture industry in Tennessee, reports of hundreds of research projects on all kinds of plants (ornamental and food), workshops and perhaps most importantly

the informal discussions between horticulturists from all over the nation.

There were commercial displays by book companies and horticultural and scientific equipment suppliers.

It would be impossible to meet at the Opryland without spending time in the hotel's conservatory of tropical foliage plants. What a collection!

With thousands of hotel guests, it was still possible to find a quiet spot (except for the sound of rushing water) under the Australian tree ferns. Aren't plants wonderful?

Plantings of two of my favorite indoor plants and many other plants were in bloom. I'm really fond of the Amazon lily (Eucharis grandiflora) with its large white daffodil-like flowers and the brilliant orange Kaffir lily (Clivia minata).

I hate to admit it, but

mine at the house don't look

near as good as those at the Opryland.

It was an interesting conference with both its light and heavy sides. On the light side, I learned that sewage sludge is called "bio-solids" and garbage is "processed consumer resource.

On the heavy side was the discussion of a strategic plan for ASHS through the year 2003. The mission of ASHS is to advance the knowledge and application of horticultural science by nurturing the diversity of professionals in horticulture, serving as a primary source of scientific information and fostering the education of the next generation of horticulturists. "When making decisions about the environment, sort out all the so-called facts promoted by various groups before rushing into strict public regulation or preservation policies that will be harmful to the incomes of families and businesses." Daniels said.

Daniels said well-meaning, but misinformed people can be misled into believing a crisis exists. Media reports, which often focus on the Northwestern United States, commonly mislead people who don't know all

Here are a few facts Daniels shared about the forests in the Northwest and Mississippi. There are 6.2 million acres of old growth (often called "virgin" or "ancient" by preservationists) standing in the National Forests of Oregon and

Still abundant throughout nation

Washington. This is an area the size of Massachusetts and Rhode Island combined. This area does not include old growth in National Forests in other states and the National Parks.

Of these 6.2 million acres 3.2 million acres, or almost 52 percent, already are set aside in areas where harvesting is forbidden forever.

There is another 1 million acres of protected old growth stands in National Parks and other preserves in that twostate area," Daniels said.

This shows that something is wrong with the general public's perception that we are running out of timber in the Northwest when in fact there are at least 4.2 million acres already preserved, never to be cut."

Mississippi is not losing its forests either. Forest survey statistics for Mississippi show that today about 56 percent of our land area, or almost 17 million acres, is in forests.

"Looking back in past forest surveys we find that in 1934 we had 16.2 million acres of forest. In 1957, Mississippi had 17.1 million and in 1977 we had 16.6 million," Daniels said.

"The area of forest in Mississippi hasn't changed significantly in nearly 60 years." Daniels encouraged people to

examine both sides of an issue before writing a check to "save" or "preserve" something.
"Contact an independent

source such as the Extension Service for information," Daniels said. "Another opinion can help you get a clearer picture and save money you'd otherwise have donated."

## Project Marine Discovery offers learning experience

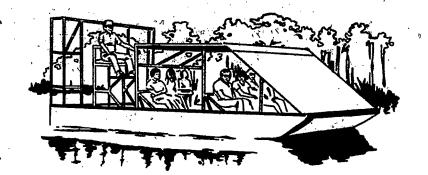

Families can share a marine learing experience this fall through "Project Marine Discovery Family Weekends" at the J. L. Scott Marine Education Center and Aquarium in

ols. 1%

Fall programs are scheduled for Sept. 10-12, Oct. 8-10 and Nov. 12-14. Activities begin at 7 p.m. on Friday evenings and end at noon on Sunday.

The hands-on exploration of the northern Gulf of Mexico coastal environment is being cosponsored by the Gulf Coast Research Laboratory, the Mississippi-Alabama Sea Grant Consortium, and the Gulf Islands National Seashore.

"Parents of our Sen Campers

asked why we didn't have any programs for them, so we developed our family weekends to provide an opportunity for parents and their children to learn hand-in-hand," explained Dr. Shelia A. Brown, coordina-

tor of educational programs at the center.

Families will take two boat trips to explore beaches, salt marshes, nearshore islands and estuarine and Gulf waters. Indoor activities include Japanese fish printing, a microscopic look at plankton, an aquarium tour to review coastal habitats, dissection of marine animals and a discussion about marine

The charge is \$64 per person without lodging or \$91 per person with dormitory accommodations at GCRL's main campus in Ocean Springs. Fees include lodging, linens, four meals, laboratory and equipment usage, boat rentals and teaching materials.

The weekend is limited to 40 participants. Family members must be at least six year old to take part in activities.

Interested persons may call 374-5550 for additional information and registration forms.

GCRL grant to fund environmental study of St. Louis Bay

The Gulf Coast Research Laboratory in Ocean Springs has been awarded \$24,939 from the U.S. Department of the Interior Mineral Management Service for the first year of a project which will examine environmental data from St. Louis Bay, Biloxi Bay and a portion of the continental shelf along Mississippi's coastline.

Dr. Charles K. Eleuterius, senior physical oceanographer, will serve as principal investigator for the two-year study.

The Coastal Mississippi Hydrographic Data Study will involve the reconstruction, synthesis and analysis of selected physical and chemical properties of these bodies of water using standard oceanographic

Analysis of this chemical and physical data will provide

important information about the hydrodynamics of these coastal areas which will be valuable for pollution control, marine resource management, coastal engineering, maritime commerce and other marine research efforts.

## Hunting, Fishing Day set in state

Governor Kirk Fordice has declared Saturday, Sept. 25 as Hunting and Fishing Day in Mississippi. The proclamation is in conjunction with National Hunting and Fishing Day.

Both sportsmen and non-sportsmen are realizing the growing need to support the wildlife management and conservation programs that are so vital to protecting our wildlife resources," Fordice said.

"Hunting and fishing have a tremendous impact on our economy and it's fitting to recognize and develop these Mississippi attributes," Fordice added.

Fordice also signed the first of 250 1993 duck stamps. This year's stamp was painted by Escatawpa artist Eddie Suthoff. Suthoff's rendition of two mallards flying over a corn field won this year's duck stamp contest held by the Mississippi Department of Wildlife, Fisheries and Parks.

This year's stamp should make collectors happy," said James Walker, director of public relations for the MDWFP. "Most of the Governor's signed stamps are already pre-sold. We are very fortunate to have the Governor participate in the program," Walker said.

Stamps and prints can be ordered by calling 364-2120.

## Guidelines for choosing new upholstery fabrics

Upholstered furniture is a major investment for a home. We expect furniture to last for a long time; we cannot afford to replace it every few years.

If we do not buy wisely, the first part of upholstered furniture that may appear worn is the fabric cover.

The following guidelines for choosing upholstery fabric may help you make the best selection for your needs. These guidelines apply whether you are buying new furniture or fabric by the yard to cover a piece of furniture.

If you want to look closer at the fabric used on new furniture, ask to see a swatch of the

-Check the surface and weave. In general, the tighter the weave and the tighter the twist of the yarns, the more durable the fabric will be.

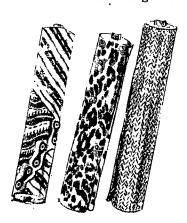

Are there loose or large slub varns (usually for decorative effect) that may snag and break? Is the fabric woven so loosely that it may not be durable?

29¢

Check the pile on such fabrics as velvets and friezes. The denser the pile, the better the performance and durability.

—Check the fiber content. Study the properties of the various fiber families and apply this information when buying upholstery fabric.

For example, cotton or nylon velvet will wear longer than

rayon velvet. Rayon and acetate fabrics will have a shorter wear life and be less durable than cotton, nylon, polyester or acrylic.

A publication on properties, advantages and disadvantages of various fibers is available from the Hancock County Extension Office.

-Check the texture. It does not have to be smooth, but be

Protected by:

**Coastal Security** 

eccecece.

sure it is not too scratchy for bare legs and arms, or too hot, clammy or slick to be comfortable.

—Check the fabric structure. Upholstery fabrics are available in the basic weaves, such as corduroy and velvet; and complex weaves, including brocade, damask, matelasse, dobby and pique.

Fabrics woven in a plain or twill weave are usually more durable because of the balance in the number of yarns going vertically (warp) and horizontally (filling).

In any case, fabrics with a tighter yarn twist, closer weave and heavier weight are more resistant to abrasion, wrinkling, seam slippage and

soiling.

—Read all labels. Labels will indicate if special finishes have been used. Often they will give suggestions on fabric care.

A fabric with a stainresistant finish may cost more, but it keeps the fabric newlooking longer and makes it easier to clean.

Tips On Writing EFFECTIVE Classified Ads

Prespective huyers need to know details, like the condition of the item for sale, the size, brand name, color and any other relevant information that would help them make a decision.

Aside from being unethical, exaggerating or misicinrming potential buyers won't help you make a sale, and may only serve to lose a prospective buyers' trust. Even if they come to look at what you have to sali, they'll be less likely to buy the item or trust you once they see they've been mislead.

Abbreviations are not easily understood by many people and may over confuse a reader. It only takes them a second to pass ever an ad because it doesn't seem clear, why let it be yours because you abbreviated a description?

Etate the price. You'll cave yourself the inacelo of having to answer calls from prospects who, upon learning the price, are not really interested. Price is the first thing they il look for when reading your ad, and when precepted know the price, you'll know you have a section buyer on the line.

Hat the best linural to still and make sure you're at home of you don't link a specific lines, you could be flooded with calls any life of the day or night. And when you're not at home to take calls, most likely, they won't call back.

If you aren't sure how to word your ad or what features to include, why not sak us? Our professionals on staff know how to create an effortive ad that soils, they're always willing to help, and there's ne charge!

WRITE YOUR OWN CLASSIFIED AD!

Just fill in this easy-to-use order form and then mail to:
